30 hours funding per week = 4x 7.5 hour day. Days and times of attendance by agreement with the nursery

We accept a strictly limited number of children on a 'funded only' basis. We give due consideration for each request and a waiting list for this attendance is kept. Children may attend for 38 weeks a year, term time only subject to availability. No charge will be made for this attendance.

The Allied Partner rate is for parents who are employed by any NHS organisation other than BHFT, GPs and their staff, dentists and their staff, any police employee, any fire brigade employee, students training within the NHS but not actually employed by an NHS Trust, staff in schools, colleges and universities within a local borough in Berkshire (independent schools are not included) and employees of a local council within Berkshire.

Fees are calculated on a monthly basis and the same fee is payable each month throughout the year. For full time attendance there is a monthly fee that is a reduction on the daily rate. For part time attendance the monthly fees are calculated as follows; daily rate times by number of days attended in a week times by 51 (weeks that the nursery is open for) and divided by twelve.

If a child joins or leaves the nursery part way through a month the fees will be calculated using the daily rate.

A 10% sibling discount is available for the older child/ren if more than one child from the same family attends the nursery.

Fees reduce after a child's second birthday and for the purpose of this calculation birthdays that fall between the 1st-15th day of the month will reduce in that month and birthdays that fall between the 16th-31st day of the month will reduce in the following month.

In addition, where the parent/s of these children meet the criteria, they are eligible to receive an additional 15 hours funding.
